

PHUC TRUONG

TRADING TECHNICAL SERVICES JSC

Independent technical sourcing and supply partner
for the oil & gas, marine and industrial sectors

COMPANY CAPABILITY PROFILE

2026

Letter from the Director

A NOTE ON HOW WE WORK

Mr. Trinh Giang Kien
DIRECTOR

Dear Valued Customers and Partners,

In technical procurement, a quotation carrying the right product name is not always the right solution. Operating conditions, applicable standards, origin, accompanying documentation and delivery schedule can all change the answer.

Phuc Truong was established to work as an independent technical sourcing partner — not bound to a single manufacturer or supply channel. Our approach begins with understanding the requirement correctly, clarifying what is uncertain, exploring the options that fit and communicating transparently so that you can decide.

We believe the value of a supplier lies not in its promises, but in its consistency across every order. We would rather be chosen for how we work than for how large we are.

On behalf of the Company, I would like to thank our customers and partners for the trust and cooperation extended to us.

Yours sincerely,

TRINH GIANG KIEN

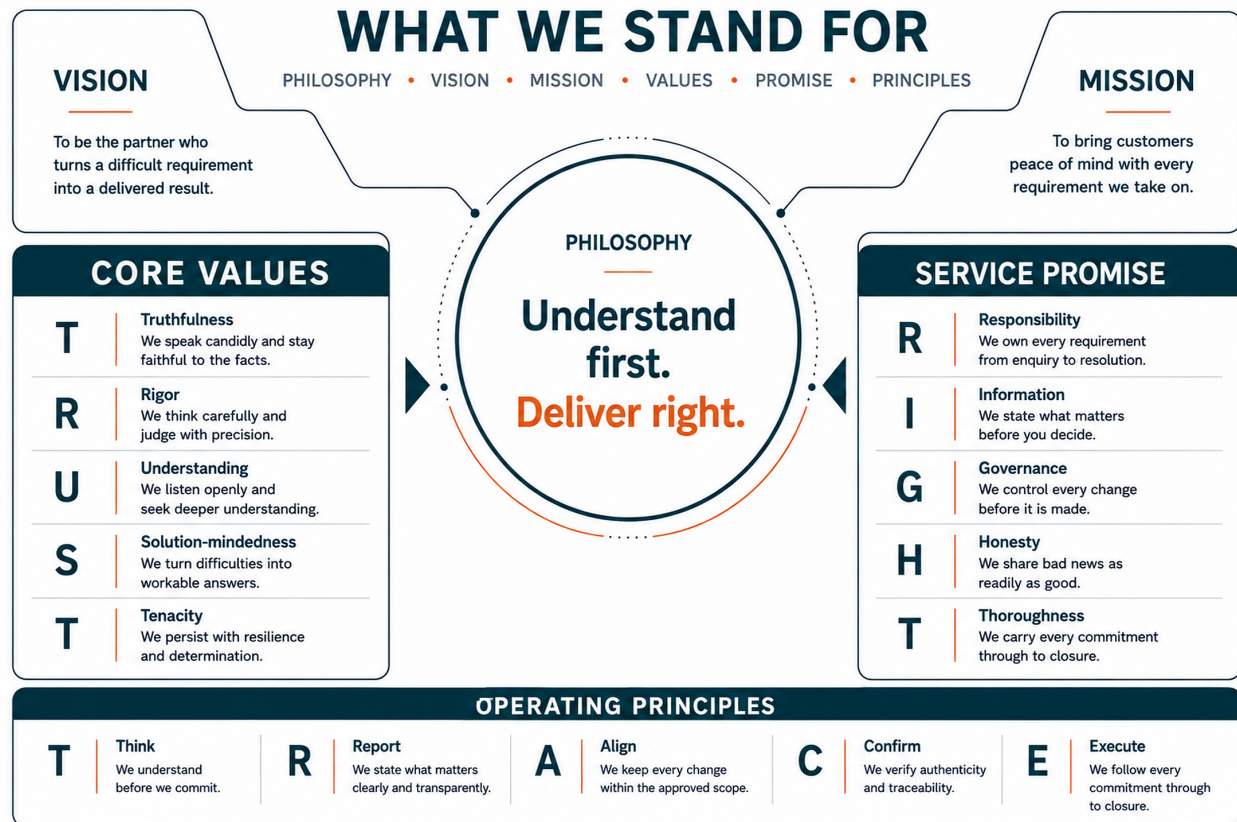

DIRECTOR

We don't promise easy answers.

We promise clear thinking and a workable way forward.

COMPANY INFORMATION

REGISTERED NAME	Phuc Truong Trading Technical Services Joint Stock Company	ESTABLISHED	2019
TAX CODE	3502388818	ADDRESS	4/2 Kha Van Can Street, Tam Thang Ward, Ho Chi Minh City, Vietnam

IN PRACTICE — COMMON SITUATIONS WE HANDLE

SITUATION	OUR APPROACH	VALUE TO YOU
Unclear requirement	Review the requirement, documents and conditions of use; confirm assumptions before quoting.	Reduces the risk of a wrong quotation or wrong delivery.
Lead-time constraint	Explore multiple sources and options; compare schedule, cost and suitability.	Improves the chance of meeting your operating plan.
Obsolete equipment	Cross-check model, part number and documentation; propose replacement options and state the differences.	Widens the options; the decision remains yours.
Multiple items and sources	Coordinate quotations, orders, documentation and delivery through a single point of contact.	Reduces your internal coordination workload.
Documentation requirements	Confirm what can be provided before ordering, and follow it through to handover.	Reduces risk at acceptance and payment.

What We Do

SOURCING, PROCUREMENT AND DELIVERY CAPABILITIES

SCOPE OF SUPPORT

01

Technical & Specialist Sourcing

- Identify products from technical descriptions, specifications, nameplates, model references and part numbers
- Source hard-to-find materials, model-specific items, and legacy or obsolete equipment
- Evaluate suitable alternatives for the customer's technical review and approval

02

Procurement Support

- Review technical requirements, datasheets and required documentation
- Coordinate technical and commercial clarifications with customers and suppliers
- Monitor orders and long-lead items, providing progress updates and early notice of potential risks

03

Order Execution & Post-delivery Support

- Coordinate importation, freight, packing and delivery
- Verify product identification and accompanying documentation
- Coordinate the resolution of shortages, discrepancies, warranty claims and replacement requirements

REPRESENTATIVE PRODUCT CATEGORIES

Mechanical Equipment & Components

Rotating equipment spares; valves and piping components; gaskets, seals, bearings, fasteners and other mechanical components.

Electrical Equipment & Components

Electrical equipment; panel components; circuit protection and switching devices; cables, connectors and electrical accessories.

Instrumentation & Control Equipment

Sensors, transmitters, gauges, switches, control devices and accessories for industrial measurement and control.

Industrial Supplies & Consumables

Maintenance tools, operating consumables, personal protective equipment and workplace safety products.

COMPLEMENTARY CAPABILITY

WATER FILTRATION SYSTEMS

Supply and installation of water filtration systems.

KEY CLIENTS SERVED

- **AGC Chemicals Vietnam Co., Ltd. (ACVN)** Manufacturer of PVC resins and supplier of caustic soda for industrial applications.
- **MODEC Management Services Pte. Ltd. – Vietnam Operations** Part of the MODEC Group, a global owner and operator of FPSO and FSO units for the offshore oil and gas industry.
- **PTSC Offshore Services (POS)** Offshore construction, installation and O&M contractor for oil & gas and energy facilities.
- **PTSC Production Services (PPS)** Provider of operation and maintenance services for FPSO/FSO units and oil & gas facilities.
- **Vietsovpetro (VSP)** Vietnam–Russia oil & gas joint venture engaged in exploration, field development and petroleum production.

Listed alphabetically; the order does not indicate ranking, share or volume. Also served: other contractors, operators and projects in the oil & gas, marine and industrial sectors in Vietnam. Reference letters available on request, within the limits of applicable confidentiality terms.

GOODS DELIVERED

Genuine OEM spares by part number

Ex-certified equipment

Fasteners & mechanical fittings

Specialised alignment tools

Photographed by Phuc Truong at inspection and packing, prior to delivery. Customer names, quantities and order terms are not shown. Brand names and trademarks appear solely to illustrate supply experience and do not imply authorised distributorship or affiliation unless expressly stated.

Documentation & Compliance

WHAT WE CAN PROVIDE WITH THE GOODS

Quality documentation

- CO — Certificate of Origin
- CQ — Certificate of Quality
- CoC — Certificate of Conformity
- CoA — Certificate of Analysis
- EN 10204 inspection certificates — Type 3.1 / 3.2
- NDE reports
- TDS / SDS (English and Vietnamese)

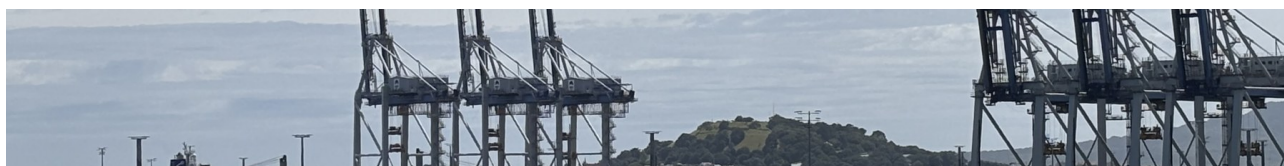

Industry certification

- Explosion-protection certificates (ATEX / IECEx)
- Industrial type approval
- Classification society witnessing (IACS member societies)
- Project-specific certification on request

Import & compliance

- HS code and duty-rate review
- Customs clearance coordination
- Coordination of post-clearance inspection and conformity certification
- Shipment coordination under agreed Incoterms — CIF, CIP, DAP

Availability of each document type is confirmed per order, before purchase. The Company operates an internal management system developed with reference to ISO 9001:2015. We are not ISO certified and do not use any certification mark or claim until certification is completed by an accredited certification body.

Import shipments are tracked from despatch to site handover by the same point of contact.

Let's solve your requirement.

Share the specification, its intended use and your timeline.

We will review it and respond with our assessment of feasibility, the points requiring clarification and the options worth considering.
